

FD/FG20-30T5C

DRIVING LOGISTICS EXCELLENCE

The TCM FD/FG20-30T5C forklift truck is driving logistics management towards new levels of performance excellence. An impressive load capacity of 2.0 to 3.0 tons underscores the truck's power and productivity while its leading-edge features guarantee safety and reliability. Refined ergonomics and steadfast structural integrity anchor this truck in a class of its own.

FORMIDABLE AND AGILE

The TCM FD/FG20-30T5C forklift truck is the epitome of power, agility and efficiency.

Robust Lifting Strength

The truck's robust performance lies in its lifting prowess. Its low centre of gravity imbues it with optimal balance and stability that ensures safety and stability. A high torque delivers steady lift speeds regardless of load extremes, increasing overall productivity.

Lifting Capacities:

- Lift speed: 640mm/s (when loaded)
 - 670mm/s (without load)
 - FD25T5C
- No capacity deration up to a height of 4 metres (2-stage mast).

Remarkable Manoeuvrability

A fully hydraulic power steering system equips the truck with remarkable manoeuvrability. It is able to navigate freely within confined spaces, executing tight turns smoothly.

- An excellent steering feature with a minimum turning radius of 2325 mm • FD25T5C
- Right angle stacking aisle width 4085 mm • FD25T5C

RELIABLE AND DURABLE

The TCM FD/FG20-30T5C forklift truck is designed for power and built to last.

Formidable Engine

At the heart of the truck purrs a formidable 44kW diesel engine that delivers supreme performance. It makes light work of lifting loads while travelling at optimal speeds. The versatile GK25 dual fuel engine forms the core of all TCM gasoline forklift trucks, offering either the gasoline or LPG options.

Efficient Powertrain

A full-floating powertrain efficiently manages the truck's impressive power, curtailing any vibrations from affecting the frame and chassis. By doing so, the powertrain maximises the truck's power while reducing wear and tear of critical components, and also ensuring comfort for the driver.

Superb Cooling System

A cutting-edge cooling system optimally regulates airflow, preventing engine overheating especially when operating in tropical conditions with high humidity and extreme temperatures. Engineered to perfection, this vital system is centred on a powerful fan that cools the engine and radiator to maintain high performance. Such effective engine management reduces stress to key components and sustains truck performance and reliability.

Effortless Maintenance

Designed for hassle-free maintenance, this model is easy to repair sans any special equipment. The easily-accessible engine bay is large and neatly organized with much room for routine repairs and servicing.

SAFE & SECURE

The TCM FD/FG20-30T5C forklift truck is the epitome of power, agility and efficiency.

① Wide Visibility

Multi-directional visibility ensures clear front and rear fields of vision.

② Integral Mast Interlock

An integrated interlock system locks mast movement whenever the switch key is off. This intelligent feature safeguards against human injury and property damage, taking truck safety to the next level.

③ Integrated Digital Display

An unobstructed digital monitor relays updated information clearly to the operator.

④ Neutral Safety Start

This unique safety design dictates that the engine can only be started when the control lever is in neutral. The truck cannot start when it is in gear.

⑤ Overhead Guard

A reinforced overhead safety guard protects the operator, and also provides comfort and shelter when outdoors without obstructing visibility.

⑥ Flexible Steering Column

A tilting steering column accommodates operators of different size and build, promising them greater mobility and comfort.

SPECIFICATIONS

CHARACTERISTICS											
1	Type of Truck					DIESEL ENGINE TRUCK			GASOLINE ENGINE TRUCK		
2	Model					FD20T5C	FD25T5C	FD30T5C	FG20T5C	FG25T5C	FG30T5C
3	Loading Capacity			Kg		2000	2500	3000	2000	2500	3000
4	Load Center			mm		500					
PERFORMANCE											
5	Maximum Fork Height			mm	A	3000	3000	3000	3000	3000	3000
6	Free Fork Height			mm	B	140	140	145	140	140	145
7	Speeds	Lifting	Loaded	mm/s		640	640	510	580	580	460
			Unloaded	mm/s		670	670	545	660	660	530
		Lowering	Loaded	mm/s		500	500	530	500	500	530
			Unloaded	mm/s		500	500	500	500	500	500
